DATA CONFIDENTIALITY, PRIVACY, AND SECURITY

Participation in this survey implies agreement to provide employee pay and benefits data to WMG to be used for the production of compensation surveys. The results of said surveys will be released to all participants on a mutual exchange basis, providing that the normal data privacy, confidentiality, and security provisions are met. WMG does not collect personally-identifiable information for our surveys (such as Employee ID, Social Security, name, phone numbers, eMail, credit card, etc.), and has a number of safeguards in effect to protect the confidentiality of the company and employee data:

- No company or individual employee identification will be associated with any data or reports generated from the database, except a participant's own data presented to them in the reports.
- All reports and data presentations are available in "aggregate" form only and display summary information only.
- To ensure confidentiality, reports will NOT be produced for any participant unless the following criteria are met:
 - Report requests should contain a minimum of five or more survey participants, in addition to the requester.
 - No reports on individual jobs will be produced in which data from any single institution (other than the requester) represents over 25% of the total data in a given job OR if there are less than five companies (including your own) reporting data on a given job.

With regards to GDPR, we continually follow and monitor the best practices of data collection, handling, storage, and security to ensure that we are in full compliance with this and similar regulations. Please contact us directly for the latest copy of our GDPR, privacy, and data protection policy.

Western Management Group conducts a variety of surveys. Each is designed to uniquely cover a particular industry, function, and/or geography. Nevertheless, in some cases there is overlap of specific jobs over two or more WMG surveys.

When there are identical job descriptions in two or more surveys, WMG shares the data submitted on those jobs between the surveys. In this way we're able to maximize the data coverage, and present the most robust possible reflection of the true labor market.

Therefore, on some jobs, the data participants submit to a specific WMG survey may be reported back in two or more WMG surveys that year.

If you have any questions regarding our data-sharing policy and procedure, please feel free to contact us.

At no time is any of the information provided by participants to our surveys shared, stored, or handled by any third parties.

SmartScreen® - DATA ENTRY SIMPLIFIED

A pre-formatted **SmartScreen**® Excel template is provided for your data entry. The **SmartScreen** template is an Excel based application that provides a flexible/user friendly interface to input, validate and securely submit your survey data. **SmartScreen** also provides you with an import capability and validity checking for those with large files for submission. You can "cut & paste" into it from your other internal data sources. The spreadsheet will highlight data that is not formatted correctly and/or data that does not fall within specified reasonable limits on each job. You are able to verify your data before submitting it to WMG, thus greatly increasing the validity of the data. It is available at no additional cost.

You can download the **SmartScreen** Excel template from:

<https://www.wmgnet.com/dnn8/Portals/0/Surveys/CA/CA24%20SmartScreen.xlsm>

Once you have entered your data, performed the "Validate Pay Data" function of your **SmartScreen** and saved your data on your computer, you can submit your SmartScreen as follows:

- Save the file, click on the "SUBMIT" tab and follow the easy steps to upload directly and securely to the WMG website. This is your most secure method to submit your data, as it is sent in an encrypted format.

SURVEY DATA ELEMENTS

- A. SURVEY JOB CODE:** The survey job code is the number corresponding to the survey job description for each job covered in the survey. The job descriptions are prepared to reflect the normal range of duties, responsibilities and requirements found in the level of job specified. It is not intended that the description list every specific task that might conceivably be assigned to that level of job. Thus, it is unlikely that your job will be an exact match to the benchmark classification description, or that you have matches for all jobs, all levels.
- B. INSTITUTION JOB CODE:** If your institution uses a job numbering system, indicate your internal institution job code that corresponds to your title. This information will help you document your job matches and entries for future reference, as well as simplifying the updating of your data in subsequent cycles of the survey.
- C. INSTITUTION JOB TITLE:** Enter the Job Title of your institution's matching position.
- D. INSTITUTION FLSA:** Indicate the Fair Labor Standards Act (FLSA) status of the job incumbent. Use **N** if the incumbent is Non-Exempt, and **E** if the incumbent is Exempt.
- E. MATCH:** Indicate the relationship of your institution job content to that of the survey description. Comparisons should be made on the basis of overall job content/duties/experience. No job should be matched where your "confidence level" is less than 80%.
- L** = Lower - institution job is less complex than the survey job description.
- E** = Equal - institution job is a good match to the survey job description.
- H** = Higher - institution job is more complex than the survey job description.
- F. DIVISION CODE:** Enter one of the following codes indicating your institution's Division.
- A1** = Division 1A
- A2** = Division 1AA
- A3** = Division 1AAA
- D2** = Division 2
- D3** = Division 3
- NA** = NAIA
- NJ** = NJCAA

G. INSTITUTION TYPE CODE: Enter one of the following codes indicating your institution’s classification.

- A1** = PUBLIC - DOCTORAL: Institution Grants Bachelor, Master and Doctoral Degrees
- A2** = PUBLIC - MASTER: Institution Grants Bachelor & Master Degrees

ESTABLISHED PAY RANGES/GRADES: Refers to formal, established pay ranges used as guideline limits for Base Pay in effect as of October 1. If your institution does not have formal pay ranges, leave this field blank. It does not necessarily reflect the highest and lowest rates currently paid. If your institution utilizes a “Broadband” approach, report the Control or Market Point, but do not report the Range Minimum or Maximum. Ranges should be reported as annualized rates.

H. INSTITUTION PAY GRADE: Enter your internal pay grade to which this job is assigned in your pay structure.

I. RANGE MINIMUM: The lowest Base Pay rate that would apply to an employee hired into the job with the minimum qualifications. Do not report Range Minimum if your institution uses a “Broadband” approach.

J. CONTROL / MIDPOINT: Normally reflects the arithmetic midpoint between the pay range minimum and maximum. If your institution administers pay using a Control or Market Point other than the arithmetic midpoint of your pay range, enter the annual amount here. If your institution uses a “Broadband” approach, report the Control Point or Market Point for the job. If none or otherwise, leave blank.

K. RANGE MAXIMUM: The highest Base Pay normally available to employees in this job. Do not report the Range Maximum if your institution uses a “Broadband” approach.

L. INSTITUTION-WIDE BONUSES: Annual cash payments earned (whether paid yet or not) for the most recently completed plan year for institution-wide bonuses and incentives. These bonuses are covered by established bonus plans of the institution, which may or may not cover other department or institution employees. They may be discretionary in nature, with no specific payout schedules or target amounts, or may be determined by defined performance criteria. Report actual amounts earned, not targeted amounts. **For employees who have been in the position for less than a full year and received a pro-rated bonus, report bonus payments as annualized amounts. If you are unable to report annualized amounts, do not report a bonus amount.**

- P. PERCENT FTE WORKED:** Enter the percentage of full-time equivalent time worked per week. For example, in a 40-hour full-time week, an employee who works 40 hours would be reported as 100.0 (100%), and employee who works 20 hours would be reported as 50.0 (50%). If your institution uses an FTE other than 40 hours per week (such as 35 hours), calculate the percentage based on your FTE.
