Credit Union
Salary Survey 2018

INVITATION TO PARTICIPATE

We invite you to participate in the 37th annual edition of the Credit Union Salary Survey. The survey is aimed at collecting and reporting accurate, reliable compensation data for Credit Unions.

This survey covers *Actual Total Cash* in the form of Actual Base Pay, Actual Individual Variable Cash, Actual Other Variable Cash, as well as Target Incentive data. Data is collected on an incumbent basis to ensure a complete picture of all compensation elements and true percentile analysis.

The survey fee of \$1,100 includes access to **BOTH** the *Standard Report* and the *Custom Report* access for the 2018 survey results through our on-line, **DataCentral**[®] reporting system. You can download Standard Reports and run Custom Reports in both PDF and XLS formats. The *Custom Report* capabilities are designed for those who need to compare their data to that of others, or would like to run reports on selected sets of participants, by asset, geography, revenue and many other scoping criteria. You can also qualify for DISCOUNTS of \$500 to help moderate your costs. The results are NOT available to non-participants.

The schedule for this study is:

<i>15 May 2018</i>	Effective date of data
15 June 2018	Deadline for submission of data
<i>August 2018</i>	Results available for participants

In order to ensure that participating companies will be able to use this data for salary planning purposes, participants will need to meet the 15 June input deadline. Those who submit data on-time will receive a \$50 discount. If you anticipate having difficulty in meeting this deadline, please contact us directly.

All of the Policy & Practice information covered in this survey is collected and analyzed on our web site at **PolicyCentral**[®]. You can logon at www.wmgnet.com to report and access this information. If you are a previous participant in any WMG survey, your policy information may already be entered in **PolicyCentral**. Just logon, review and update them as necessary. Update your **PolicyCentral** information by 15 June and receive a \$50 discount.

Western Management Group is a consulting firm whose practice, since 1972, has been exclusively oriented to the development and conduct of third party, specialized compensation surveys. All data received by Western Management Group is safeguarded in accord with the highest professional standards. You may be assured that no company will have independent access to your data. All data for this survey will remain confidential and will not be divulged to any outside party.

We invite and welcome your participation and trust that the resulting report will be of considerable value in the analysis of your compensation programs. Should you have any questions regarding the survey, please feel free to contact me directly at +1 408 596 7372, or donna@wmgnet.com.

Very truly yours,

Donna Bowman, PHR
Survey Director
donna@wmgnet.com

Banking Data Comparison	Yes	Yes	Yes
Discounts Available	Yes	Yes	Yes

KEY SURVEY FEATURES

- Electronic input via our user-friendly SmartScreen Excel Template.
- Extensive validation and editing of data by seasoned compensation professionals.
- Total Cash Compensation data including Actual Base Salary, Profit Sharing, Performance Bonuses, Team Awards, Discretionary Bonuses, etc.
- Geographic breakouts of data for regions, states, and major metropolitan areas throughout the country.
- Asset and Revenue Level breakouts.
- Over 55 participants were included in the 2017 edition.
- Over 265 benchmark jobs, each with detailed job descriptions.
- The survey fee includes access to **BOTH** the *Standard Report* and the *Custom* survey results through our on-line, **DataCentral** reporting system, where you can run and download reports in both PDF and XLS formats. The *Custom Report* capabilities are designed for those who need to compare their data to that of others, or would like to run reports on selected sets of participants, by asset, geography, revenue and many other scoping criteria.

NEW THIS YEAR

- A new data element has been added to the SmartScreen, Gender, identifying the gender of the employee. If you are unable to provide this data simply leave the column blank.

F = Female

M = Male

SURVEY SCHEDULE

Our schedule calls for the production and distribution of this year's survey in August 2018. In order to meet this output schedule, it is **extremely important** for you to submit your information to us as soon as possible, so we may audit and verify your entries, and have ample time to clarify any data or policy questions with you.

15 May 2018	Effective Date of Data
15 June 2018	Input Due to Western Management Group
15 June 2018	PolicyCentral® Topic Update Due
August 2018	Final Report Publication Date

SURVEY FEES

All survey results are delivered via **DataCentral®** our online survey report tool. You have 24x7 access to your choice of either the **Standard Report** which includes data from ALL participants on ALL jobs, or **Custom Report** where you can create your own report selections based on your choice of companies, product sectors, geographies, revenue, etc. With the Custom Report you have complete control of the complexity of analyses, comparisons, and customization of results from the survey database, and you can run an unlimited number of reports to satisfy your needs on a 24x7 basis at any time.

DataCentral® Access	\$1,100
Hard Copy of Standard Report (in addition to the fee above)	\$200
Financial Services Compensation Survey	\$250

SURVEY DISCOUNTS

YOU CAN EARN SIGNIFICANT DISCOUNTS on your 2018 Credit Union Salary Survey fees!

- \$50 On-Time Discount if you submit your pay data by 15 June 2018
- \$50 PolicyCentral Discount if you complete/update the "core" topics in PolicyCentral by 15 June 2018
- \$100 Previous Participant Discount for all 2017 Credit Union Compensation Survey Participants
- \$300 New Participant Referral Discount to you for each new participant you refer – PLUS the company you refer also receives this discount!

SURVEY RESULTS - DataCentral® SUBSCRIPTION

All participants will receive 24x7 access to **DataCentral®** where you can to download Standard Reports which cover all participants and all jobs, and Custom Report access where you can define your own selection criteria for selected cuts. Results are provided in both PDF and XLS Formats at no additional cost.

STANDARD REPORT

Download the full survey Standard Report which contains ALL data from ALL participants. Your data is included in the computation of job data statistics and totals. Available in both Adobe Acrobat and Excel formats, at no additional cost.

- **Job Descriptions:** Uploadable job descriptions in Excel, Word and Adobe Acrobat are also provided at no additional cost.
- **Summary Report:** Displays the employee weighted, simple average, or median of each pay element for each survey job.
- **Detail Report:** For each survey job, displays employee weighted averages, simple averages and percentile data for each pay element as well as base-to-bonus earnings mix data, and number of employees reported to each FLSA Status.
- **Breakout Report:** For each survey job, displays average or median data of each pay element broken out by Industry, Product Sector, Geographic Area and Company Revenue.
- **Uploadable Excel Report:** Provides a job-by-job spreadsheet report with all of the major statistics and pay elements laid out in a readily uploadable format for third party analysis software.

A hard copy, printed version of the Standard Report is also available for an additional \$200 (only offered in addition to a DataCentral subscription).

CUSTOM REPORT

The Custom Report Generator offers detailed and full customized reporting capability. Ideal for participants who need reports based on a selected set of participants or to meet specific scoping criteria. You may choose to include or exclude your own data from the market results calculations, **plus** you have the ability to filter and compare your data to ALL data from ALL participants, or a Geographic area, or Product of your choice. You have complete control and flexibility in defining your own reports.

- Company Selections
- Company Size by Asset or Employment
- Business Segment
- Geographic Area: Region/State/Metro Area
- Data Elements and Statistics Calculations
- Custom Percentiles
- Standard Deviations
- Weighted and Simple Averages
- Data Aging
- And much more!

Includes all of the above reports from the Standard level PLUS

- **Market Comparison Report:** The Market Comparison report displays your company compares to the market in graphic and tabular form.
- **Uploadable Excel Breakout Report:** Similar to the Uploadable Excel Report above, **PLUS** adds the ability to split the results into categories such as Geography, Product, or Assets.

For a live demonstration of the power, flexibility and capabilities of **DataCentral** go to www.wmgnet.com and scroll down to "Our Features" under "DataCentral" and click on "Take a Test Drive, or call Donna Bowman at +1 408 596 7372 for a guided tour.

FICTITIOUS DATA

SAMPLE – DETAIL REPORT

1002 ADMINISTRATIVE SUPPORT 2

Under limited supervision, performs a variety of semi-routine clerical duties of moderate complexity requiring the exercise of some discretion and use of limited judgment and initiative. Follows written and verbal instructions with work usually subject to spot check. Performs duties such as maintaining complex files, keeping records, preparing schedules, compiling and checking reports, searching and investigating information contained in files, processing departmental documents requiring specific knowledge of functional operations, posting records and typing correspondence and reports from rough drafts. May operate general business machines such as typewriter, copier, calculator, data entry terminal, telex or other similar machines. Assignments can be in several functional areas and include such job titles as Share Draft Clerks, Credit Card Clerks, Loan File Clerks, Positioning Clerks, Share Certificate Clerks and the like.

	Established Ranges			PAY TYPE DISPLAYED: Annual Rate

PolicyCentral® – ONLINE POLICIES AND PRACTICES RESOURCE

You can earn a \$50 discount when you complete/update your information in PolicyCentral.

Compensation related policy and practices information from all of our surveys is collected and analyzed through our website at **PolicyCentral** – your online source for the compensation policy issues. Simply log on at www.wmgnet.com and click on **PolicyCentral** to complete this portion of your survey.

You will receive a \$50 discount on your survey fees if you complete or update your **PolicyCentral** information on the following “Core Topics” by 15 June 2018.

- 2018 Pay Increase Budget
- Cost of Employee Benefits as a Percentage of Payroll
- Employment Turnover/Reduction In Force (RIF)
- Individual Performance Bonus (Excluding Sales Positions)
- Insurance: Health & Medical
- Paid Personal Time Off - PPTO
- Paid Sick Leave
- Paid Vacation
- Pay Increase Plan Design
- Retirement: Defined Contribution Plans (401(k) Type Plans)

We understand that it may require an initial investment of your time to enter your company's data the first time for these “Core Topics”, but once your data is in, updating it next year won't take as much of your time; you only need to review and update your changes for “time sensitive” topics annually. All of your previous data is retained for modification, and if you are in multiple WMG surveys, you only need to enter/update annually, and it covers all of your surveys, and you will be eligible for multiple discounts!

Over 100 additional topics are also available and once you enter your own data on any topic, you can generate a report for that topic.

In PolicyCentral you are able to customize your reports by selecting specific companies, product groups, survey groups, geographic areas, and more. You can also receive reports in colorful graphics and uploadable spreadsheet format – all free of any additional charge.

Enhanced Selection and Reporting Capability can be based on the following: (Data will not be displayed for any topic where there are less than 5 organizations reporting.)

- Industry
- Headquarters Location
- Size of Organization
- Employee Population
- Annual \$ Revenue
- Specific WMG Survey Participants
- Age of Data
- Specific Company Selections
- Ability to Include or Exclude your own data
- Tabular and Graphic Analysis/Display
- Results loadable to Excel files

You can logon at www.wmgnet.com to report and access your **PolicyCentral** information. If you are a new participant, or have misplaced your username and password, call or email Donna Bowman at +1 408 596 7372 or donna@wmgnet.com.

PREVIOUS JOB MATCH REPORT

If you were a participant in the 2017 Credit Union Salary Survey, and need access to the data you submitted last year, please call our office at +1.408.399.4900 or email donna@wmgnet.com.

DATA CONFIDENTIALITY AND SECURITY

Participation in the survey implies agreement to share data with all other participants on a confidential, mutual exchange basis, providing that the normal data confidentiality and security provisions are met. Data received from each company is assigned a confidential company code that is only used for internal processing. Your company alone has access to your company code. It is not divulged to any outside organization. In order to protect the confidentiality of the data there are several additional safeguards in effect.

- No company identification will be associated with any data or reports generated from the database, except a participant's own data and reports.
- All reports and data presentations are available only in "aggregate" form and display summary information only.
- To ensure confidentiality, reports will NOT be produced for any participant unless the following criteria are met:
 - Report requests should contain a minimum of five or more survey participants, in addition to the requester.
 - No reports on individual jobs will be produced in which data from any single company (other than the requester) represents over 25% of the total data in a given job OR if there are fewer than five companies (including your own) reporting data on a given job.

Western Management Group conducts a variety of surveys. Each is designed to uniquely cover a particular industry, function, and/or geography. Nevertheless, in some cases there is overlap of specific jobs over two or more WMG surveys.

When there are identical job descriptions in two or more surveys, WMG shares the data submitted on those jobs between the surveys. In this way we're able to maximize the data coverage, and present the most robust possible reflection of the true labor market.

Therefore, on some jobs, the data participants submit to a specific WMG survey may be reported back in two or more WMG surveys that year.

If you have any questions regarding WMG's data-sharing policy and procedure, please feel free to contact us.

SmartScreen® – DATA ENTRY SIMPLIFIED

A pre-formatted **SmartScreen®** Excel template is available to simplify your data entry. The **SmartScreen** template is an Excel based application that provides a flexible/user friendly interface to input, validate and securely submit your survey data. **SmartScreen** also provides you with an import capability and validity checking for those with large files for submission. You can “cut & paste” into it from your other internal data sources. The spreadsheet will highlight data that is not formatted correctly and/or data that does not fall within specified reasonable limits on each job. You are able to verify your data before submitting it to WMG, thus greatly increasing the validity of the data. It is available at no additional cost.

You can download the **SmartScreen** Excel template from:

<http://www.wmgnet.com/dnn8/Portals/0/Surveys/CU/CU18 SmartScreen.xls>

Once you have entered your data, performed the “Validate Pay Data” function of your **SmartScreen** and saved your data on your computer, you can submit your SmartScreen as follows:

- Save the file, click on the “SUBMIT” tab and follow the easy steps to upload directly and securely to the WMG website. This is your most secure method to submit your data, as it is sent in an encrypted format.

OR

- Save the **SmartScreen** file to a location of your choice on your computer. Attach the completed file to an e-mail message and send to Donna Bowman at donna@wmgnet.com

When your **SmartScreen** data is received in our office, it is reviewed and edited for completeness, reasonability and validity prior to acceptance and use in the survey database. All data is passed against complex edit standards that have been designed to identify questionable data entries and job matches. All data entries that do not meet this check will be brought to your attention for verification and must be either substantiated or eliminated.

We strongly recommend that you keep a file copy of all information submitted to the survey for reference should we need to contact you for verification, and as a protection against loss. If you need assistance interpreting the input requirements, matching your jobs to the survey classifications or completing your **SmartScreen** please call or email Donna Bowman at +1 408 596 7372 or donna@wmgnet.com.

SmartScreen® - LAYOUT AND SPECIFICATIONS

Participants with large data files are advised to format them as specified above and import to the **SmartScreen** template for validation prior to submission to WMG. Please call Donna Bowman at +1 408 596 7372 if you have questions about the use of the SmartScreen, if you have a data file exceeding 65,000 records, or proper formatting of your file.

- Report annual dollars, whole numbers – do not include cents
- If you have used formulas to calculate fields, convert the formulas to “values” prior to uploading to **SmartScreen**
- DO NOT include decimals, dollar signs (\$) or cents – These will be formatted for you
- DO NOT add columns of information not defined on the Record Layout below
- DO NOT use any field delimiters
- DO NOT include or add hidden columns
- DO NOT change the order of the columns
- DO NOT assign a password to the document. You can use the “Submit” tab to directly and securely upload your file

R	Gender	18

SURVEY DATA ELEMENTS

- A. SURVEY JOB CODE:** The survey job code is the number corresponding to the survey job description for each job covered in the survey. The job descriptions are prepared to reflect the normal range of duties, responsibilities and requirements found in the level of job specified. It is not intended that the description list every specific task which might conceivably be assigned to that level of job. Thus, it is unlikely that your job will be an exact match to the benchmark classification description.
- B. COMPANY JOB CODE:** If your company uses a job numbering system, indicate your internal company job code which corresponds to your title. This information will help you document your job matches and entries for future reference, as well as simplifying the updating of your data in subsequent cycles of the survey.
- C. COMPANY JOB TITLE:** Enter your internal company job title for each job reported. Titles which are longer than 50 characters will be truncated. Please abbreviate where possible.
- D. FLSA STATUS:** Indicate the Fair Labor Standards Act (FLSA) status of the job incumbent. Use “N” if the incumbent is nonexempt, and “E” if the incumbent is exempt.
- E. ASSET LEVEL CODE:** Defines the Credit Union’s current asset level as follows:
- C = Under \$49 Million
 - D = \$50 - \$99 Million
 - E = \$100 - \$149 Million
 - F = \$150 - \$249 Million
 - G = \$250 - \$499 Million
 - H = \$500 – 999 Million
 - I = Over \$1 Billion
- F. COMPANY PAY GRADE:** Enter your the name/number of your internal pay grade to which this job is assigned in you pay structure.
- PAY DATA:** Report all pay data for each employee as **Annualized** rates. Do not include format characters such as \$ Dollar signs, commas, decimals or cents. Include employees who work over 20 hours per week on a regular basis and are eligible for normal pro-rated benefits. Do not include temporary or agency employees, employees who work less than 20 hours per week, contractors, or those whose pay is being managed in a special way.
- ESTABLISHED PAY RANGES/GRADES:** Refers to formal, established pay ranges used as guideline limits for Base Pay. If your company does not have formal pay ranges, leave this field blank. It does not necessarily reflect the highest and lowest rates currently paid. If your company utilizes a “Broadband” approach, report the Control or Market Point, but do not report the Range Minimum or Maximum. Ranges should be reported as **annualized** rates.
- G. MINIMUM:** The lowest Base Pay rate which would apply to an employee hired into the job with the minimum qualifications. Do not report Range Minimum if your company uses a “Broadband” approach.
- H. MARKET POINT OR CONTROL POINT:** Normally reflects the arithmetic midpoint between the pay range minimum and maximum. If your company administers pay using a Control or Market Point other than the arithmetic midpoint of your pay range, enter the annual amount here. If your company uses a “Broadband” approach, report the Control Point or Market Point for the job. If none or otherwise, leave blank.
- I. MAXIMUM:** The highest Base Pay normally available to employees in this job. Do not report the Range Maximum if your company uses a “Broadband” approach.

J. VARIABLE CASH ELIGIBILITY FLAG:

- 0** = Not eligible to receive ANY Variable Cash compensation (Neither Actual Individual Variable Cash nor Actual Other Variable Cash).
- 1** = ONLY eligible to receive payments from an “Actual Individual Variable Cash” defined program.
- 2** = ONLY eligible to receive payments from an “Actual Other Variable Cash” defined program.
- 3** = Eligible to receive payments from BOTH Actual Individual Variable Cash and Actual Other Variable Cash programs.

Note: The Eligibility Code only indicates eligibility, and is independent of the actual payments for variable cash programs. An employee may be “eligible” for the program, but may not have received any payment amounts for the survey period.

K. ANNUAL BASE PAY: Annual base pay rate in effect as of 15 May. For part-time employees, report the equivalent full-time rate. Reported amounts must be Pre-401(k) Deferrals. Include: COLAs, geographic differentials, step plan increases.

Exclude:

- | | |
|----------------|------------------------------|
| Bonuses | Profit Sharing |
| Overtime | Shift Premiums/Differentials |
| Gainsharing | Sales Incentives/Commissions |
| Car Allowances | Stock Grants/Options |
| Lead Premiums | Patent/Suggestion Awards |

L. PRODUCTION INCENTIVE: Annual cash payments earned for the most recent completed plan year for any of the following types of programs. Production Incentives are paid on the following types of products sold/referred by front-line reps and sale people. **The amount of incentive varies depending on the product.**

Include:

- | | |
|----------------------------------|---|
| New Membership opened | Home Equity Line of Credit (HELOC) is sold/funded |
| Insurance Product sold | Mortgage re-financed |
| Deposit/Loan Dollar growth | 1 st Mortgage referral is funded |
| Health Savings Account is opened | New Member Company referral |
| Client referral to CUSO | Certificate of Deposit (CD) sold |
| Checking account opened | |

M. ACTUAL INDIVIDUAL VARIABLE CASH: Annual cash payments earned (whether paid or not) for the most recent completed plan year for any of the following programs. Report actual amounts earned, not targeted amounts. Payments to these programs should be based on goals/performance which the incumbent has an influence, and be recurring in nature.

Include:

- | | |
|------------------------------|--|
| Discretionary Bonus | Key Contributor Awards |
| Individual Performance Bonus | Lump Sum Merit Increases |
| Team/Group/Unit Bonus | Holiday Bonuses |
| MBO Bonus | Similar Cash Award/Variable Pay Programs |
| Short Term Cash Payouts | Spot Awards |
| Sales Incentive/Commissions | Key Contributor Awards |

Exclude:

- | | |
|--------------------------------|---|
| Cash & Deferred Profit Sharing | Overtime Payments |
| Gainsharing Awards | Nominal Spot Awards (Less than \$100 Value) |
| Production Incentives | |

N. ACTUAL OTHER VARIABLE CASH: Annual cash payments earned for the most recently completed full plan year for Other Variable Cash awards. Report actual amounts earned, expressed in annual dollar amounts, for the most recent full plan year, whether paid during or after the plan year. Do not report long-term, deferred, retirement, or vesting programs. Report partial year or pro-rated payments as annualized amounts.

Include:

Team/Group/Unit Bonus	Gainsharing Awards
Profit Sharing	

Exclude:

Car Allowances	Gross-up amounts paid for tax purposes
Lead Premiums	Overtime
Sales Incentives/Commissions	Patent/Suggestion Awards
Hiring/Retention Bonuses	Key Contributor Awards
Long-term or retirement plan payments	Shift Differentials
Stock Grants/Options	MBO Bonus
Individual Performance Bonus	Lump Sum Merit Increases
Discretionary Bonus	Holiday Bonuses
Short Term Cash Payouts	Spot Awards

O. TOTAL CASH: Total Annual cash earned by incumbent. MUST equal the sum of Base Pay + Variable pay + Other Variable Cash + Production Incentive expressed in annual dollar amounts.

P. EMPLOYEE RECORD NUMBER: Enter a unique employee identifying number assigned by your company to enable internal tracking and verification of data. We recommend you select a number which will be consistent for a reported employee from one year to the next. You may use any scheme meeting your own needs, such as Employee I.D., Badge Number, Payroll Number or any other participant assigned number which will allow you to associate the data with your own employee and provide for easy reference should we need to contact your to clarify, audit or verify your input data. **Do not use employee names or initials in this field.**

EXAMPLES: Employee I.D. Number of 526-71-5867 is entered as 526715867 (exclude spaces or dashes).
Employee I.D. of 47 82 would be entered as 4782.

Q. WORK ZIP CODE: Enter five-digit the Postal ZIP Code of the **WORK LOCATION** of the employee. The “work location” may be the Company Headquarters, Regional Office, Remote Center, Service Center, Customer Site, or the Employees’ home, depending on where the employee spends the bulk of their time. Report the location which best represents the employees’ work location. Do not report the nine-digit Postal ZIP Code.

R. GENDER: Identifies the gender of the employee:

F = Female

M = Male

JOB MATCHING

This survey is aimed at collecting data for a variety of levels of individual contributors, supervisory and management level positions within several functions.

A general job description is provided for each job covered in the survey. These descriptions are prepared to reflect the normal range of duties, responsibilities and requirements found in the level of job specified. It is not intended that the description list every specific task that might conceivably be assigned to that job. Rather, it is a general indication of the scope and complexity of the job. Thus, it is unlikely that your jobs will be exact matches to the job descriptions.

The description should be used as a reference and guide to the general level of skill required for the performance of the typical duties listed. As a basic guide, you should have a minimum of an 80% confidence level that your job is a match. Pay particular attention to the exclusions and qualifying remarks in some descriptions.

MULTIPLE LEVEL MATCHING

Your job family may have more, or less levels within it than are identified in the survey. Review the content of the survey description to determine if two or more of your levels may need to be combined for reporting to a given survey level.

For Example: The survey has four levels of Branch Manager. Your company has five. Upon review of the survey descriptions, you may determine that your 3rd and 4th level would be best reported to the 3rd level in the survey. Therefore, combine your 3rd & 4th level and report both in the 3rd level of the survey.

Conversely, if you have two levels, and the survey has five, try to allocate your employees among the five survey levels based on job content, experience, and complexity, where possible, but do not force fit.

BLENDED JOBS - DO NOT DOUBLE MATCH:

If your employee performs a combination of duties from two or more survey job levels or groups, pick the one survey job or group where at least 80% of the survey job content fits the employee. **DO NOT** match the same employee to more than one survey job level or group. If no survey job represents at least 80% of the duties of the employee, **DO NOT REPORT** that employee. **"If in doubt, leave it out."**

JOB DESCRIPTIONS

Please refer to the preceding pages "Job Index" for reference tables on the job codes and titles.

SENIOR EXECUTIVES/OFFICERS

23 CEO/PRESIDENT/GM 3 (CU Assets under \$49 Million)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

24 CEO/PRESIDENT/GM 4 (CU Assets \$50-\$99 Million)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

25 CEO/PRESIDENT/GM 5 (CU Assets \$100-\$149 Million)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

26 CEO/PRESIDENT/GM 6 (CU Assets \$150-\$249 Million)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

27 CEO/PRESIDENT/GM 7 (CU Assets \$250-\$499 Million)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

28 CEO/PRESIDENT/GM 8 (CU Assets \$500 - 999 Million +)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

29 CEO/PRESIDENT/GM 9 (CU Assets \$1 Billion +)

Retains full responsibility for planning, directing, organizing and controlling the operational activities and staff of the organization in accordance with policies as established by the Board of Directors. Implements and coordinates operating practices and procedures to insure effective operations which meet established objectives. Provides guidance and recommendations to assist the Board in determining short and long-term objectives for the organization. Establishes and provides for the maintenance of controls and systems to analyze and report on operating efficiency and financial status of the Credit Union. Coordinates the activities of various operating committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of Credit Union staff. This is generally the top management position in the Credit Union.

Experience and Training: A minimum of a Bachelor's degree in Business Administration, a related field, or equivalent experience. Requires advanced knowledge of the Credit Union industry and its operating practices as would normally be obtained by seven to ten, or more years of experience involved with Credit Union operations at the management level.

65 EXECUTIVE VICE PRESIDENT/ASSISTANT GM

Under general direction recommends and participates in the formulation of new policies and makes decisions within existing policies as they have been approved by the CEO/President/General Manager and the Board of Directors. Plans, organizes, directs and coordinates the staff, programs and activities of the Credit Union to insure that objectives are attained. May act as Chief Executive Officer/President/General Manager in the absence of the Chief Executive Officer/President/General Manager. Coordinates the activities of various operation committees and functions. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of the Credit Union staff. May be responsible for the operating functions of the Credit Union.

Experience and Training: Bachelor's degree in Business Administration, a related field or equivalent experience. Requires advanced knowledge of Federal and State laws regulating Credit Unions. NOTE: This is the top level position in the Credit Union. This incumbent is responsible for the full scope of the function and normally reports directly to the CEO.

100 CONTROLLER

Responsible for the controller functions at the corporate level. Directs the development and administration of the accounting systems, practices and procedures which conform to accepted accounting principles and reflect operating costs, budgets and profitability. Provides for timely preparation, interpretation and analysis of financial data statements, audits and the like which cover sales, earnings, profits, cash balances and financial results. Normally reports to the most senior financial position of the institution, but may report directly to the CEO.

Experience and Training: Bachelor degree in accounting, a related field or equivalent experience and CPA training or certification. Six years of responsible accounting management experience.

110 CHIEF ADMINISTRATION EXECUTIVE

Is responsible for the efficient management of the Credit Union's administrative functions, including, but not limited to, Purchasing, Property Management/Facilities, Compliance, Human Resources, Disaster Recovery, Training, Security, Office Services, and other like functions. Implements administrative policies affecting all departments in the Credit Union. Has total responsibility for the employment, counseling, performance evaluation, training, motivation and discipline of the administrative staff; may manage through lower level managers. Develops controls to monitor administrative activities; develops plans to ensure the most efficient practices are being used.

Experience and Training: Minimum of a Bachelor's degree in Business Administration, a related field or equivalent experience. Requires advanced knowledge of the Credit Union industry and its administrative practices. NOTE: This is the top-level position in the Credit Union. This incumbent is responsible for the full scope of the function and normally reports directly to the CEO.

300 CHIEF FINANCIAL OFFICER/EXECUTIVE

Serves as senior financial officer of the institution and may serve as Treasurer. May administer, but does not supervise activities of Central Accounting. Undertakes such projects as financial and tax planning, budget development, debt and equity financing, outside banking activities and operation of the investment portfolio. Initiates, develops and recommends financial policies and planning; directs preparation and submittal, in compliance with appropriate laws, regulations and corporate requirements, of accurate and timely financial tax and regulatory corporate reports. May coordinate systems operation and establish performance standards for branch expenses and evaluate results against such standards. Ensures integrity for institution's financial records from the point of origination, including the primary responsibility for information content. Directs development of a plan to manage cash resources to maximize investments and return of funds. Directs development of accounting policies and an accounting plan. Initiates and conducts research and analytical studies on various aspects of areas of responsibility. Manages the function through lower level Vice Presidents, Directors and/or Managers. Normally reports to the CEO. NOTE: This is the highest level position in this functional organization of the institution.

430 MARKETING EXECUTIVE/DIRECTOR

Under the direction of the General Manager, develops and maintains a marketing program designed to inform the membership, potential membership and the general public of Credit Union services and advantages of Credit Union membership. Prepares and arranges for the dissemination of information to members and others that will project a favorable image for the Credit Union. Plans advertising in various media, including newspapers, radio, and television. Insures maximum utilization of the available Credit Union advertising programs so as to obtain the highest benefit for the Credit Union. Works with advertising agencies in preparing promotional literature.

Monitors, researches and analyzes current and potential loss and fraudulent activity trends. Compiles, develops, and communicates programs and information as required to address relevant actions required to address loss and fraud requirements. Participates in investigations of potential fraudulent activity as necessary. Analyzes potentially suspicious activity and completes required forms. Initiates and maintains insurance-related correspondence with the General Liability and Bond carrier. Performs security administration and supporting records quality control functions pertaining to all Loan and Mortgage and Card Access related systems and serves as back-up for assigning security access to these systems.

Experience and Training: Associates degree with 3 years of progressively more responsible credit union or financial industry experience with expertise in a wide-range of financial operations, lending and consumer regulations.

FINANCE/ACCOUNTING

4001 ACCOUNTING ASSISTANT 1

Under close supervision performs routine and repetitive accounting clerical duties in areas of Accounts Payable, Accounts Receivable, Cost Accounting, Payroll or Credit and Collections. Follows well established routines to accomplish assignments such as sorting and filing accounting records and data, collecting simple information posting minor records, compiling routine data, making and checking basic calculations, preparing and sorting mail, answering phones, and simple typing. May operate general business machines such as typewriter, copier, calculator, adding machine or similar office equipment.

Experience and Training: Basic reading, writing and mathematical ability. Entry level position to the accounting clerical job family. No prior accounting experience required, but general business experience desired.

4002 ACCOUNTING ASSISTANT 2

Under limited supervision, performs standard accounting clerical duties in the areas of Accounts Payable, Accounts Receivable, Cost Accounting, Payroll or Credit and Collections. Posts detailed entries to accounting records and handles routine transactions such as disbursements, payroll operations, voucher preparation and remittances, and prepares standard accounting entries. Prepares and verifies various standard accounting entries for financial data processing system; reconciles report discrepancies and problems. Utilizes adding machines or desk calculators.

Experience and Training: Ability to read, write and perform routine mathematical/accounting operations. One year related experience. Excludes those with lead responsibilities.

4003 ACCOUNTING ASSISTANT 3

Under general supervision, performs non-routine accounting support duties in areas of accounts payable, accounts receivable, cost accounting, payroll or credit and collection. Performs specialized calculations, posting and accounting functions. Codes accounts payable invoices for proper account functions, checks prices, quantities and extensions; receives remittances, posts to proper accounts and prepares transmittal documents; prepares and issues credit and debit memos; prepares, extends and issues bills and invoices from appropriate sales and shipping documents; prepares payroll input data, maintains payroll control; maintains expense report controls and accounts; makes up periodic reports summarizing business and financial activities. Codes data for input to financial data processing system; reconciles difficult report discrepancies and problems. Normally responsible for a complete and systematic set of transactions in a special phase of accounting, requiring acquired knowledge of specified accounting policies and practices. May provide work leadership to others through assignment of work, monitoring of progress, review of results, orientation and technical instruction.

Experience and Training: Ability to read, write and perform non-routine mathematical/accounting operations. Three years of general accounting or bookkeeping experience. Excludes those with bona fide supervisory responsibilities.

4021 ACCOUNTANT 1

Following established procedures, performs detailed accounting assignments requiring a basic knowledge of accounting theory and principles. Work is subject to general review and under the direction of senior accounting personnel. Provides specialized or general analysis support in various accounting functions such as Accounts Receivable, Accounts Payable, Payroll, Taxes, Property Accounting, General Accounting and the like. Reviews and analyzes journal vouchers, accounting classifications and other accounting or financial statements, records and reports. Assists higher level accountants in a variety of accounting assignments such as: taking trial balances, making adjustments and closing entries, preparing profit and loss statements, receipts and disbursements, balance sheets, computing and distributing labor, material and overhead costs.

Experience and Training: Bachelor's in Accounting, Business Administration, equivalent major or equivalent experience. This is the normal entry level to the professional accounting family of jobs.

4022 ACCOUNTANT 2

Following general instructions and with discretion as to work details, performs accounting tasks of a difficult nature requiring an experienced, professional knowledge of accounting principles and practices. Provides specialized or general analysis support in various accounting functions such as Accounts Receivable, Accounts Payable, Payroll, Taxes, Property Accounting, General Accounting and the like. Interprets accounting data, analyzes reports and recommends action to be taken. Prepares difficult journal entries, maintains complex ledgers, reconciles and analyzes specific general ledger and cost accounting ledgers. Assists in the development and installation of accounting systems, cost accounting methods, procedures and controls. May establish and maintain property accounting records. Reviews the preparation of various financial statements, records and reports compiled by lower level accounting support personnel. May provide work leadership for an accounting function unit such as Payroll, Accounts Receivable, Cost Accounting, Consolidations, etc.

Experience and Training: Bachelor's in Accounting Business Administration, or an equivalent major or the equivalent experience. Two years of professional accounting experience or CPA.

4023 ACCOUNTANT 3

Performs accounting duties of a complex nature requiring advanced professional experience, knowledge and competency in accounting principles and practices. Works with broad discretion as to work details on assignments of a varied, diverse and difficult nature. Responsible for filing tax and governmental forms. Provides specialized or general analysis support in various accounting functions such as Accounts Receivable, Accounts Payable, Payroll, Taxes, Property Accounting, General Accounting and the like. Prepares specialized reports and analyses. Submits recommendations for improved operations. Develops and installs difficult accounting systems, methods, procedures and controls. Balances complex accounts, prepares complex Federal, local or State reports and tax records for manager and officers. Provides work leadership to lower level accounting personnel on complex assignments, projects or tasks. May review their progress and work for adequacy, method and procedure. May supervise an accounting functional unit such as Payroll, Accounts Receivable, Consolidations, etc.

Experience and Training: Bachelor's in Accounting, Business Administration, equivalent major or equivalent experience. Four years of professional accounting experience, or CPA plus two years.

4047 ACCOUNTING SUPERVISOR

First level supervisory position responsible for the direction and coordination of accounting activities and functions such as Accounts Payable, Payroll, Accounts Receivable, General Accounting, etc. or a combination of these functions. Provides direction and guidance to accounting clerical staff to insure completion of assigned tasks. May perform special analyses, maintain designated accounts, etc. within assigned functional areas.

Experience and Training: Requires four to five years of general accounting experience within related area/function. Advanced training in general accounting practices and principles is highly desirable.

4052 PAYROLL ASSISTANT 2

Under general supervision, performs a wide variety of functions relating to payroll accounting for the various payrolls such as salaries employees, hourly employees, and/or union employees. Compiles information of straight and overtime pay and computes variance to normal pay. Prepares tax deposits and reports. Handles account reconciliation to the General Ledger for payroll liabilities. Utilizes adding machines, data input terminals, Personal Computers, and the like. May provide work leadership to payroll clerks.

Experience and Training: Ability to read, write, perform basic accounting operations and operate 10-key by touch. A typical incumbent will normally possess a minimum of three years of directly related experience.

4053 PAYROLL ASSISTANT 3

Under general supervision, performs a wide variety of functions relating to payroll accounting for the various payrolls such as salaried employees, hourly employees, and/or union employees. Compiles information of straight and overtime pay and computes variance to normal pay. Prepares tax deposits and reports. Handles account reconciliation's to the General Ledger for payroll liabilities. Utilizes personal computer or input terminal. May provide work leadership to lower staff members.

Experience and Training: Ability to read, write, perform basic accounting operations and operate personal computer. Three years related experience. Excludes those with full supervisory responsibilities.

4097 PAYROLL SUPERVISOR

First level EXEMPT supervisory position responsible for directing and assisting in the preparation, distribution and accounting of employee payroll. Prepares or assists in the preparation of a variety of reports summarizing payroll, profit sharing, deductions, withholding and the like. Audits payroll summaries, bank balances, labor and wage reports. Provides special payroll and deduction information and assistance as required. Maintains internal procedures to insure that employees receive authorized pay rates and deductions. Investigates and resolves questions and discrepancies in pay checks and distribution in accordance with established policies. Coordinates payroll functions with other departments such as Accounting, Data Processing, Personnel and the like. Includes only those employees with bona fide supervisory duties. Typically reports to Accounting Manager or Controller.

Experience and Training: Experience and Training: Accounting training or experience which would provide a full understanding of common payroll practices and policies, processing procedures, state and federal withholding laws and supervisory skills.

4151 FINANCIAL ANALYST 1

Performs specialized financial, accounting or planning activities following general project or departmental guidelines, procedures and precedents in support of various financial functions such as budgeting, auditing, financial planning, taxes, consolidations and the like. Conducts assigned financial studies and surveys to collect, summarize and analyze financial actions. Assists in preparing recommendations for policy, procedure, control or action. May assist in interpreting and applying corporate or division level policy and accounting theory. Evaluates and analyzes standard capital expenditure proposals, investment opportunities, profit plans, operating records, financial statements and the like. Assists in the preparation of special studies, reports, analyses, and recommendations in areas such as budgets, forecasts, financial plans, governmental requirements, statistical reports and business forecasts.

Experience and Training: Knowledge of financial and accounting theory as would normally be obtained through a Bachelor's degree in a financially related field, or equivalent experience. May include entry level MBA candidates. One year of accounting experience is desirable.

4152 FINANCIAL ANALYST 2

Develops, interprets and implements highly complex financial/accounting concepts and advanced techniques for financial planning and control. Provides expert advisor advisory capability and interpretation on all levels of financial activity. Plans, coordinates and executes policy implementation applicable to the installation of improved financial operations. Provides specialized technical analysis to determine present and future financial performance. Directs the development and implementation of new concepts and techniques for financial information analysis. Coordinates with all levels of management, within and outside the Credit Union, to gather, analyze, summarize and prepare recommendations regarding financial plans, acquisition activity, trended future requirements, operating forecasts and similar complex financial matters. Acts as consultant to management on financial policy, procedures and applications. Organizes information from a variety of sources to establish data banks for use in analyzing and creating future plans and forecasts. Performs complex economic research and studies on subjects such as rates of return, depreciation's, working capital requirements, investment opportunities, investment performance, impact of government requirements and the like. Prepares and presents reports of findings and recommendations to management. May provide functional and technical direction to other financial staff members.

Experience and Training: Advanced knowledge of financial and accounting theory, principles and practices as would normally be obtained through a Master's degree in a financial field, or equivalent experience and five years of broad financial experience.

4153 FINANCIAL ANALYST 3

Responsible for performing professional Financial Analyst assignments, including conducting special studies and surveys to summarize and analyze complex financial actions and prepare recommendations for policy, procedure, control or action. Provides interpretation and application of corporate or divisional level financial policies, governmental legislation, accounting theory or customer financial regulations which may require knowledge of financial principles, practices and application. Evaluates profit plans, capital expenditures proposals, investment opportunities, operating records and financial statements. Directs and/or assists in the preparation of special studies, reports, analyses and recommendations in areas such as budgets, forecasts, financial plans, governmental requirements, statistical reports and business forecasts for the financial community or management use. Coordinates with all levels of management, within and outside of the company, to gather, analyze, summarize, and prepare recommendations regarding financial plans, budgetary controls, acquisition activity, trended future requirements, operating forecasts and similar complex financial matters. Develops, interprets and implements highly complex financial/accounting concepts and advanced techniques for financial planning and control. Provides specialized technical analysis to determine present and future financial performance. Directs the development and implementation of new concepts and techniques for financial information analysis.

Experience and Training: Master degree in Finance, related field, or equivalent experience. 5-8 years of broad financial experience.

4154 FINANCIAL ANALYST 4

Develops, interprets and implements highly complex financial/accounting concepts and advanced techniques for financial planning and control. Provides interpretation and application of corporate or divisional level financial policies, governmental legislation, accounting theory or customer financial regulations which may require knowledge of financial principles, practices and application. Evaluates profit plans, capital expenditures proposals, investment opportunities, operating records and financial statements. Directs and/or assists in the preparation of special studies, reports, analyses and recommendations in areas such as budgets, forecasts, financial plans, governmental requirements, statistical reports and business forecasts for the financial community or management use. Coordinates with all levels of management, within and outside of the company, to gather, analyze, summarize, and prepare recommendations regarding financial plans, budgetary controls, acquisition activity, trended future requirements, operating forecasts and similar complex financial matters. Prepares special reports and financial studies for management and alerts them to significant variances to plan. Coordinates, negotiates and resolves financial compliance issues with various governmental agencies to ensure accurate interpretation. Conducts and may lead audits. Eight years financial analysis experience, including a thorough knowledge of DAR/FAR and other applicable government regulations.

Experience and Training: Master degree in Finance, related field, or equivalent experience. 8+ years of broad financial experience.

4451 PERSONAL FINANCIAL COUNSELOR

Provides comprehensive confidential financial counseling services to the credit union members and local community. Will identify and work with prospective clients, identifying their needs by analyzing their present income, asset and debt situation; recommending appropriate financial, investment or insurance solutions; and helping clients to take actions based upon the developed financial plan. Review and analyze complex data such as income financial statements, assets, cash flow, investments and debt ratios. Ability to forecast and provide data analysis for clients and members. Provide guidance regarding money management and budgeting. Review financial hardships situations and evaluate for possible loan restructure and/or extension, including work out loans. Generate and work with high-risk borrower reports, including new delinquency, first payment, default, first time buyer/starter Visa delinquency, and real estate delinquency reports. Provide ongoing seminars relating to money management, credit building/repair, and remedial budgeting to members, businesses and people in the community.

Experience and Training: Bachelor degree in Financial Planning, Business, Finance or related field. Minimum 5 years experience in financial counseling to include financial management.

4492 ACCOUNTING/FINANCE MANAGER

Responsible for management, direction and operation of the general accounting activities of the credit union such as Accounts Receivable, Accounts Payable, Cost Accounting, Payroll, Credit and Collections. Plans and directs the development, implementation and operations of accounting systems and procedures to reduce costs, obtain improved information and provide detailed and timely financial reports covering sales, earnings, profits, cash balances and other financial results. Provides for day-to-day maintenance of general and subsidiary ledgers of the company, preparation of operation and financial statements, reconciliation of bank statements, control of fixed assets, depreciation, accrual to meet anticipated liabilities, preparation of general tax reports such as sales, payroll and property taxes. Performs financial analysis of Credit Union operations to ascertain financial performance, liquidity, cash flow, budget performance, cost control and similar financial activities. Responsible for the employment, counseling, performance evaluation, training, motivation and discipline of assigned employees.

Experience and Training: Bachelor's degree in Accounting or Business Administration and five years of general accounting experience including supervision of an accounting function.

4499 ASSISTANT VICE PRESIDENT- CONTROLLER

Oversees the financial analysis and accounting functions of the credit union. Develops and coordinates quantitative methodologies for analysis of regulatory changes, market conditions, interest-rate risk, liquidity risk, fiscal soundness and product development using computer models and economic theory. Ensures accounting and financial analyses/statements are in conformity with regulatory requirements.

Participates in the credit union's strategic planning process, providing input into future strategic action items. Manages the credit union's investment portfolio and the borrowing sources. Develops and manages ongoing analyses of products and services to determine profitability and performance and makes recommendations. Ensures that implemented accounting policy, systems, procedures and other operating instructions are in conformity with generally accepted accounting principles, and regulations and requirements governing credit union operations. Coordinates with public auditors to conduct required audits.

Experience and Training: Bachelor degree in Accounting, Finance, Economics or a related field. Six years of related and progressively more responsible experience.

4507 ELECTRONIC SERVICE SUPPORT SUPERVISOR

Under limited direction, responsible for coordinating the day to day operation of process support of the various product and ancillary functions of various departments in the Credit Union. Administratively responsible for managing and directing the overall workflow of a combination and variety of general officer activities such as central check and item processing, ATM balancing, Fedline, ACH, and mail deposits. Provides recommendations, documentation, and implementation of new and revised operating procedures. Responsible for the overall management and supervision of the check processing department and other processes that support the products and services offered to the membership which includes the daily processing of in-clearing cash letters, checks, check balancing and adjustments and entries in the suspense account, member payroll and ACH. General ledger account reconciliation, ATM balancing and adjustments, ATM disputes and research, records retention management, address changes, verification of deposit, Fedline processing, levies, mail deposit, dormant account processing, check order and reorders, return deposit items and letter processing. Monitors all equipment to ensure it is in good working order and is being maintained properly. May set up and maintain general activities with a variety of other functions to provide required support.

Experience and Training: Requires four to five years of general accounting experience within related area/function. Advanced training in general accounting practices and principles is highly desirable. General capabilities in use of personal computer based business application software.

FACILITIES/PLANNING

5003 PURCHASING ASSISTANT 3

Under minimal supervision, performs advanced and complicated clerical tasks in support of purchasing activities. Assignments require the application of detailed knowledge of purchase order processing and departmental policies and practices. Independently handles inquiries and answers correspondence. May provide work leadership to lower level staff through assignment of work training, coordination and checking assignments. Normally considered a nonexempt position.

Experience and Training: Reading, writing, arithmetical skills equivalent to those obtained from completion of high school or commensurate experience. Requires working knowledge of policies and practices or the purchasing activity as would be normally obtained from three years of directly related purchasing experience. Excludes those with full supervisory responsibilities.

5004 PURCHASING ASSISTANT 4

Under minimal supervision, performs standard purchasing tasks to procure assigned supplies, equipment, materials, parts and services for support of operational requirements. Works within established procedures to procure items consistent with price, quality and delivery specifications. Guidance from superiors would usually be available. Contacts vendors to obtain prices and delivery commitments. Expedites critical orders. Researches and develops sources for assigned standard items. Maintains vendor lists, files and catalog library. Prepares standard Requests for Quotation. Reviews quotations with superiors before award for price, delivery and quality. Awards to most qualified vendor. Coordinates purchasing details with vendor, including pricing revisions, order cancellations, discontinued items, acceptable substitutes, back orders, delivery date revisions, invoice discrepancies and the like. Normally a transition position from clerical/administrative support duties to the professional buyer job family. Duties are usually considered nonexempt in nature.

Experience and Training: Two years college level business training or equivalent experience. Two additional years procurement activity to acquire basic buying skills.

6502 FACILITIES MAINTENANCE WORKER 2

Under close supervision, performs routine repair, modification and preventative maintenance task. Troubleshoots, repairs and maintains standard facility systems. May install minor modifications. Tasks are well defined and guidance from supervisor is readily available. Excludes trainees with no previous experience. Performs repair, modification and preventative maintenance tasks on buildings, facilities and systems. May do limited carpentry and painting. Conducts preventative maintenance inspections and performs required preventative maintenance actions. Utilizes standard hand and portable power tools. Assists in the movement of furniture, materials and equipment as required.

Experience and Training: High school diploma and 2 to 4 years related office or Credit Union experience.

6503 FACILITIES MAINTENANCE WORKER 3

Under general supervision, performs repairs and preventative maintenance on a wide variety of buildings, facilities, equipment, fixtures and systems. Installs, troubleshoots, repairs and maintains a wide variety of facility plumbing, mechanical and electrical systems. Responsible for the storing of Credit Union records both on and off-site. May be responsible for performing facilities related purchasing. Performs repair, modification and preventative maintenance tasks on buildings, facilities and systems. May do limited carpentry and painting. Conducts preventative maintenance inspections and performs required preventative maintenance actions. Utilizes standard hand and portable power tools. Assists in the movement of furniture, materials and equipment as required. Coordinates work of outside contractors. May provide work leadership for lower level maintenance mechanic through assignment of work, coordination of effort, providing technical guidance and review of assignment progress.

Experience and Training: High school diploma and 3 to 5 years related office or Credit Union experience.

6697 FACILITIES SUPERVISOR

First level supervisor responsible for a wide variety of maintenance operations including equipment installation, facilities equipment repair and preventive maintenance. Maintenance functions include building, grounds, electrical, air-conditioning and mechanical systems. Coordinates with outside contractors for service contracts. Typically manages the day-to-day workflow of subordinate nonexempt workers.

Experience and Training: Requires broad knowledge of electrical and mechanical maintenance activities. Experience may include specialized work experience, e.g., electrical, plumbing, etc. Requires 4 years maintenance experience and skilled trade apprenticeship equivalency.

6698 FACILITIES MANAGER

Plans, organizes, directs and controls the activities and staff involved in the design, construction coordination, modification, maintenance and administration of Credit Union facilities and equipment. Develops plans and programs responsive to present and anticipated space and facility requirements. Formulates and monitors Credit Union facility standards. Participates in site identification, selection and acquisition activities to ensure the most economic application and utilization of institution facility resources. Evaluates proposals and bids for various design, contracting and follow-up services as required. Recommends bid acceptance. Reviews preliminary and final working drawings for adherence to specifications, qualifications, professional capabilities and reputation of architects, general contractors, sub- contractors and service contractors available for bid consideration. Directs and works with architects, staff consultants, and contractors in the design and development of new facilities. Provides design and space criteria and coordinates final approval of facility designs. Investigates and evaluates new materials, systems, equipment or items which may otherwise benefit the Credit Union in its facilities programs.

Experience and Training: Requires a well rounded knowledge of facilities design, construction, administration and maintenance as would normally be acquired by a Bachelors degree in Civil Engineering or a related technical discipline and seven years of progressively responsible facilities development/construction experience. Supervision experience required.

INFORMATION TECHNOLOGY

6001 COMPUTER OPERATOR 1

Under limited supervision assists in the set-up, operation and monitoring of the control console of a computer for the processing of data and preparation of business/scientific reports, studies and analyses. Following established procedures performs the more routine and standard operations such as loading input and output materials. Starts and monitors standard runs where documentation is readily available; observes control panels for malfunctions, errors or operator messages and responds accordingly. Refers complex problems to more experienced operators or others.

Experience and Training: This is the normal entry level in the Computer Operator job family. Requires basic knowledge of data processing fundamentals and equipment operation. Excludes trainees, data library and input/output control personnel.

6002 COMPUTER OPERATOR 2

Under general supervision sets up, operates and monitors the control console of a computer for the processing of data and preparation of business/scientific reports, studies and analyses. Following established procedures, determines equipment set-up and operation; loads equipment with required input and output materials, operates and monitors runs; makes adjustments to correct operational problems or meet special conditions, observes control panels for malfunctions, errors in operations messages. Provides diagnosis in common error situations and may remedy malfunction. Refers complex problems to Senior Operator or others.

Experience and Training: This is an experienced level with full technical capabilities for operating a computer installation of moderate size and capability. Excludes operators with lead responsibilities.

6003 COMPUTER OPERATOR 3

Under general supervision sets up, operates and monitors the control console and associated peripheral equipment for the processing of a wide variety of business/scientific reports, studies and analyses. Following established procedures determines equipment set-up and operation. Loads equipment with required input and output materials. Operates and monitors peripheral and auxiliary equipment; starts and monitors runs, making adjustments to correct operational problems or meet special conditions. Observes control panels for malfunctions, errors in operations messages. Provides diagnosis in complex error situations to determine point of equipment or program failure. As guided by operations run manual may rearrange program steps, restart or continue operations to correct system malfunction. Confers with technical personnel in the event error requires a change of instructions or sequence of operations. Maintains operations records such as machine performance and production records. Schedules work flow to meet predetermined requirements. Provides work leadership to other operations personnel through assignment of work, monitoring of progress, review of results, orientation and technical instruction. May assume responsibility for operations on a designated shift.

Experience and Training: This is the full experience level with advanced technical capabilities for operating a computer installation of significant size and capability. Normally requires more than three years of increasingly responsible experience. Includes working leaders. Excludes those with bona fide supervisory responsibilities.

6032 DATABASE ADMINISTRATOR 2

Under general supervision responsible for performing Database Administrator assignments, including the design, implementation and maintenance of databases. Works with end users to define and document requirements and to implement database structures for applications and reports. Ensures operation of automated processes including appropriate data backups and recovery of lost or damaged data. Monitors database server performance and coordinates with others to ensure that data retrieval occurs in a consistent and timely manner. Coordinates hardware and software upgrades and performs appropriate testing related to database systems. Competent to work on several phases of database administration, but requires some instruction and guidance in other phases.

Experience and Training: Bachelor degree in Math, Computer Science or Technical training equivalent. 2- 3 years experience.

6033 DATABASE ADMINSTRATOR 3

Under limited supervision responsible for performing Database Administrator assignments, including the design, implementation and maintenance of databases. Works with end users to define and document requirements and to implement database structures for applications and reports. Ensures operation of automated processes including appropriate data backups and recovery of lost or damaged data. Monitors database server performance and coordinates with others to ensure that data retrieval occurs in a consistent and timely manner. Coordinates hardware and software upgrades and performs appropriate testing related to database systems. Competent to work in most phases of database management. At the highest level, designs, implements and maintains moderately complex databases with respect to job control language, access methods, access time, device allocation, validation checks, reorganization, protection and statistical methods.

Experience and Training: Bachelor degree in Math, Computer Science or Technical training equivalent. 4-5 years experience.

6097 COMPUTER OPERATIONS SUPERVISOR

Supervises the activities and staff involved in operating a computer operations section or shift. Coordinates and supervises activities such as equipment scheduling, production control, data libraries, teleprocessing, and similar operations. Supervises the set- up, operation and monitoring of a wide variety of computer and data processing equipment and associated peripherals in the production of reports, studies and analysis. Prepares work schedules, controls work flows, provides technical guidance and operational assistance to data processing staff and coordinates the major aspects of computer operations as assigned. Assigns staff to insure optimum effectiveness and monitors performance, prepares and analyzes operational data, logs and reports on operating efficiency and utilization. Recommends methods and practices to minimize costs, insure optimum output and maintain quality. Monitors data security and integrity procedures. Trains, instructs and orients staff in proper procedures, operations and methods. Responsible for the employment, employee motivation, counseling, discipline and changes in status of employees supervised. Normally a first-level exempt supervisory position. Excludes working leads.

Experience and Training: Formal training in data processing techniques including operational training on computer systems and associated peripherals is required. Normally requires five years of increasingly responsible experience with exposure to the direction of others.

6098 COMPUTER OPERATIONS MANAGER

Plans, organizes, and controls the activities and staff involved in the study, design, development and installation of data processing systems, including systems analysis and computer operations. Performs all aspects of a computer operator to complete daily, weekly, biweekly, monthly, and quarterly job streams. Serves as a liaison between the Credit Union and vendors to ensure adequate service between remotely located branches. Also coordinates the ordering of new lines and equipment. Oversees the proper functioning of all Credit Union terminals and arranging service calls when necessary. Orders new hardware as required by the Credit Union. Coordinates the installation and service of hardware, does minor repairs or hook-ups as necessary. Maintains complete documentation for operation of the system. Involves all aspects of operating the system such as tape retention, operator responses, run times, record counts and special form setups. Maintains a tape library to ensure enough tapes for all processing. Also required to be sure all tapes to be retained for recovery and backup are properly stored and available to restore an entire quarter if required. Develops and coordinates implementation of an EDP security policy for the Credit Union computer and related concerns, e.g. (data security, software security and disaster recovery). Serves as a liaison between the Credit Union and software vendor or Service Bureau for all interface concerning the computer and software needs and problems. Involves implementing necessary system changes or enhancements.

Experience and Training: Bachelor's degree in Computer Science, a related field or equivalent experience. Seven years of processing activities.

6121 NETWORK ENGINEERING/ADMINISTRATOR 1

Under general supervision, assists in the planning, coordinating, controlling and monitoring the availability, applicability and utilization of data telecommunications equipment and facilities within and between Credit Union locations to ensure quality and reliable data communications. Assists in developing network requirements and in developing hardware/software solutions to provide required service which complies with data systems networking architecture and communication protocol requirements. Coordinates and reviews the installation of hardware and implementation of software. Prepares and maintains operating procedures and associated documentation.

Experience and Training: Advanced or higher level certification or equivalent experience. A minimum of one year of related experience. A typical incumbent will normally possess two to three years directly related PC/LAN experience.

6122 NETWORK ENGINEERING/ADMINISTRATOR 2

Under general supervision, assists in the planning, coordinating, controlling and monitoring the availability, applicability and utilization of data telecommunications equipment and facilities within and between Credit Union locations to ensure quality and reliable data communications at all times. Evaluates network requirements and develops hardware/software solutions to provide required services. Develops network plans in conjunction with data system networking architecture and communications protocol requirements. Coordinates and reviews the installation of hardware and implementation of software. Prepares and maintains operating procedures and associated documentation. Provides second-level technical support to Credit Union staff and may provide assistance to lower level LAN administrators.

Experience and Training: Bachelor's degree in Computer Science, Telecommunications or a related technical field or equivalent experience. A minimum of two to three years prior computer network/telecommunications experience and the understanding of network theory and practices is required. A typical incumbent will normally possess three to six years of directly related experience.

6128 NETWORK ENGINEERING MANAGER

Performs professional level tasks in conjunction with operating and maintaining local area networks with multiple users. Responsibilities include designing of network needs and layout, maintaining file server computers (often in different locations), setting up network peripheral devices, administering network security, and performing complex server maintenance. Assists user departments with resolving technical network requirements and problems. Has full managerial responsibility for the LAN department, including budgeting and supervision of department employees.

Experience and Training: Minimum of Bachelor's degree in Computer Science or a related field, or equivalent experience. The typical incumbent will normally possess a minimum of seven years of directly related experience and supervisory experience.

6141 TELECOMMUNICATIONS/NETWORK TECHNICIAN 1

Under close direction configure, implement, and maintain voice, data and network communications systems. Monitors communications performance using visual, diagnostic equipment, status indicator checking methods, etc., to locate problems. Utilizes electronic and telephone equipment. Responds to local area network (LAN) and wide area network (WAN) user requests for system upgrades and changes. May support various systems needs of electronic mail, message centers, or other computer automated communications systems. Interfaces with vendors on new technology and system updates.

Experience and Training: Associates degree, or 2 years of formal technical training and 0-1 year of related experience; or an equivalent combination of related training and experience.

6142 TELECOMMUNICATIONS/NETWORK TECHNICIAN 2

Under general direction configure, implement, and maintain voice, data and network communications systems. Monitors communications performance using visual, diagnostic equipment, status indicator checking methods, etc., to locate problems. Utilizes electronic and telephone equipment. Responds to local area network (LAN) and wide area network (WAN) user requests for system upgrades and changes. May provide maintenance support for various systems such as electronic mail, message centers, or other computer-automated communications systems. Interfaces with vendors on new technology and system updates.

Experience and Training: Associates degree, or 2 years of formal technical training and a minimum of 2 years of related experience; or an equivalent combination of related training and experience.

6143 TELECOMMUNICATIONS/NETWORK TECHNICIAN 3

Under limited direction configure, implement, and maintain voice data and network communications systems. Assists supervisors and communications engineers/analysts in planning and designing communications systems. Monitors communications performance using visual, diagnostic equipment, status indicator checking methods, etc., to locate problems. Utilizes electronic and telephone equipment. Responds to local area network (LAN) and wide area network (WAN) user requests for system upgrades and changes. May provide maintenance support for various systems such as electronic mail, message centers, or other computer-automated communications systems. Interfaces with vendors on new technology and system updates.

Experience and Training: Associates degree, or 2 years of formal technical training, and a minimum of 5 years of related experience; or an equivalent combination of related training and experience.

6144 TELECOMMUNICATIONS/NETWORK TECHNICIAN 4

Under liberal direction configure, implement, and maintain complex voice, data and network communications systems. These technicians assist supervisors and communications engineers/analysts in planning and designing of complex communications systems. Monitors communications performance using visual, diagnostic equipment, status indicator checking methods, etc., to locate problems. Utilizes electronic and telephone equipment. Responds to local area network (LAN) and wide area network (WAN) user requests for system upgrades and changes. May provide maintenance support for various systems such as electronic mail, message centers, or other computer-automated communications systems. Interfaces with vendors on new technology and system updates.

Experience and Training: Associates degree, or 2 years of formal technical training, and a minimum of 8 years of related experience; or an equivalent combination of related training and experience.

6202 WEBMASTER

Is the editor of the institution's Web site. Creates and maintains the contents of internal and external Web sites. Investigates new technology to assure the institution's presence on the Web is easily assessable. Maps the flow of the site, creates general graphics, and establishes the overall look and feel of the site. Provides specifications to the Web Developer and other vendors for development of databases, interactive applets and custom graphics. As the expert of site technical organization and operations, interacts a liaison between the site and it's users. Utilizes knowledge of programming languages such as: HTML, CGI, Visual Basic, Java, SQL, Activex, ODBC, Frontpage, etc., ensures the site is useful to users and potential users. May act as 'Lead' of a web development team.

Experience and Training: Requires a BSCS, BSEE, or equivalent degree, or equivalent experience. Thorough knowledge of Windows NT, UNIX, Java Script, Perl, Photoshop, etc., and web/database design skills (RDBMS/ORDBMS, Oracle, Sybase, Informix, etc.) also required. The typical incumbent will normally possess 2-4 years of directly related system programming/analysis and networking experience, including one year of Internet experience.

6212 WEB DESIGNER/ADMINISTRATOR 2

Under general supervision, provides guidance with the design, development of the institution's Web site, technologies, and processes that will allow the institution to maintain a leading edge in all Internet, Intranet and HTML based technologies. Manages all aspects of the daily maintenance, operation and evolution of the server software, including system security, monitoring usage statistics and logs, modifying configuration settings and backing up the system. Troubleshoots system-related problems as required. Utilizes knowledge of operating systems such as UNIX, Windows NT, TCP/IP, and Internet services such as HTTP and FTP serves, focuses on files within the server root to maintain the institution's profile on Internet Search engines and information resources to ensure information regarding the institution is up to date and accurate.

Experience and Training: Requires a BSCS, BSEE, or equivalent degree, or equivalent experience. Thorough knowledge of Windows NT, UNIX, Java Script, Perl, Photoshop, etc., and web/database programming skills relating to the Internet also required. The typical incumbent will normally possess 5-7 years of directly related system programming/analysis and networking experience.

6231 IS SUPPORT SPECIALIST 1

Under general supervision responsible for monitoring Main Host, WEB, Audio, Cold Storage Archive and Imaged Optical software and hardware. Assists in the daily operations task which includes posting ACH, Visa and Debit files; downloading and processing ATM reports, downloads and processes files from DMV, and ensures transmissions of outbound data files to third party processors. May assist with monthly and yearly operational tasks including processing and uploading Financial Institution Data Match, OFAC processing, updating US Savings Bond information, uploading monthly Credit reporting files to vendor, sending MPR and SEG files to Marketing and IRS form generation. Monitors batch processing jobs for department reporting, Close Day processing, Month and Year end processing. Assists in server backups and recovery if necessary. Monitors disk storage space and memory requirements on ancillary servers. Acts as liaison with assigned vendors during problem resolutions, programming change requests, special programs development requests, software modification testing and software capabilities inquiries. Reviews IS operations, hardware and software and researching, testing, recommending and implementing procedures, software/hardware, WEB member software/hardware and Audio Response Unit hardware/software and related configuration files.

Experience and Training: Bachelor degree in Computer Science or related field. One year of experience in working in IS using personal computers and system networks.

6232 IS SUPPORT SPECIALIST 2

Under limited supervision responsible for monitoring Main Host, WEB, Audio, Cold Storage Archive and Imaged Optical software and hardware. Assists in the daily operations task which includes posting ACH, Visa and Debit files; downloading and processing ATM reports, downloads and processes files from DMV, and ensures transmissions of outbound data files to third party processors. Performs monthly and yearly operational tasks including processing and uploading Financial Institution Data Match, OFAC processing, updating US Savings Bond information, uploading monthly Credit reporting files to vendor, sending MPR and SEG files to Marketing and IRS form generation. Administers batch processing jobs for department reporting, Close Day processing, Month and Year end processing. Performs server backups and recovery if necessary. Monitors disk storage space and memory requirements on ancillary servers. Acts as liaison with assigned vendors during problem resolutions, programming change requests, special programs development requests, software modification testing and software capabilities inquiries. Reviews IS operations, hardware and software and researching, testing, recommending and implementing procedures, software/hardware, WEB member software/hardware and Audio Response Unit hardware/software and related configuration files.

Experience and Training: Bachelor degree in Computer Science or related field. 2-4 years of experience in working in IS using personal computers and system networks.

6233 IS SUPPORT SPECIALIST 3

Provides work direction to IS operations staff and directs administration of Main Host, WEB, Audio, Cold Storage Archive and Imaged Optical software and hardware. Oversees the daily operations task which includes posting ACH, Visa and Debit files; downloading and processing ATM reports, downloads and processes files from DMV, and ensures transmissions of outbound data files to third party processors. Performs monthly and yearly operational tasks including processing and uploading Financial Institution Data Match, OFAC processing, updating US Savings Bond information, uploading monthly Credit reporting files to vendor, sending MPR and SEG files to Marketing and IRS form generation. Administers batch processing jobs for department reporting, Close Day processing, Month and Year end processing. Performs server backups and recovery if necessary. Monitors disk storage space and memory requirements on ancillary servers. Acts as liaison with assigned vendors during problem resolutions, programming change requests, special programs development requests, software modification testing and software capabilities inquiries. Reviews IS operations, hardware and software and researching, testing, recommending and implementing procedures, software/hardware, WEB member software/hardware and Audio Response Unit hardware/software and related configuration files.

Experience and Training: Bachelor degree in Computer Science or related field. 5+ years of experience in working in IS using personal computers and system networks.

6242 PC SUPPORT SPECIALIST 2

Under the general supervision provides PC and software technical support to credit union PC employees. Installs and troubleshoots PC and peripheral hardware and software. Provides input on the selection and implementation of new computer-related equipment. Installs and maintains PC software and hardware.

Experience and Training: Associates degree in Computer Science or related discipline plus two years related experience.

6243 PC SUPPORT SPECIALIST 3

Under the limited supervision provides PC and software technical support to credit union employees. Installs and troubleshoots PC and peripheral hardware and software. Provides input on the selection and implementation of new computer-related equipment. Installs and maintains PC software and hardware.

Experience and Training: Associates degree in Computer Science or related discipline plus 2-4 years related experience.

6271 HELP DESK COORDINATOR 1

Under close supervision, responsible for screening, referring and diagnosing internal inquiries and work requests as they relate to maintenance of personal computers and related systems. Provides telephone based technical support to end users throughout the organization including hardware and software support. May assist in performing minor troubleshooting to identify applicable problems relating to hardware, applications software and basic network communications. Work assignments are routine in nature where limited judgment is required and standard resolutions are available. Normally receives detailed instructions on all work. Entry level position.

Experience and Training: High school diploma or equivalent. General knowledge of a wide variety of software, hardware and PC operating systems is preferred.

6272 HELP DESK COORDINATOR 2

Under limited supervision, responsible for screening, referring and diagnosing internal inquiries and work requests as they relate to maintenance of personal computers and related systems. Performs troubleshooting and diagnostic routines to identify problems relating to hardware application software and network communications. Responsible for all customers with questions regarding any supported software and computing platforms. Assist department in tracking resources through the input of issue details into tracking database for all support issues. Performs user call back to verify acceptable problem resolution. Work assignments are semi-routine in nature where ability to recognize deviation from accepted practice is required. Normally receives general instructions on routine work and detailed instructions on new assignments. Intermediate level position.

Experience and Training: High school diploma or equivalent. Requires a minimum of 2 years of experience with a wide variety of software, hardware and PC operating systems.

6273 HELP DESK COORDINATOR 3

Under minimal supervision, responsible for screening, and referring and diagnosing internal inquiries and work requests as they relate to maintenance of personal computers and related systems. Performs major troubleshooting and diagnostic routines to identify problems relating to hardware applications software and network communications. Responsible for all customers with questions regarding any supported software and computing platforms. Assist department in tracking resources through the input of issue details into tracking database for all support issues. Performs user call back to verify acceptable problem resolution. Work assignments are moderately complex in nature where judgment is required to resolve problems and recommend resolution. May determine methods and practices on moderate problems. Does not normally require instructions on routine work. May receive general instructions on new assignments. Senior level position.

Experience and Training: High school diploma or equivalent. A minimum of 4 years of broad working knowledge and experience on a wide variety of software, hardware and PC operating systems.

6311 PROGRAMMER/ANALYST 1

Conducts and coordinates the analysis, design and implementation of computer based information systems to meet user requirements. Plans and directs preliminary studies of potential electronic data processing applications and prepares design proposals to reflect costs, time and alternative actions to satisfy existing and future needs of the Credit Union. Participates in systems software development and maintenance as required. Conducts detailed analysis of defined systems specifications and develops all levels of block diagrams and flow charts. Assists in the preparation of costs analyses and justifications of data processing systems. Develops conversion and system implementation plans. Conducts a full range of programming tasks including program design, program coding, debugging and documentation for a variety of general applications programs including data manipulation, input and output routines reflecting a variety of equipment configurations. Programs logical interfaces and applies techniques for efficient program logic and data manipulation. Develops operator and control instructions; maintains and updates existing programs of a non-routine nature. Conducts systems programming and support activities such as new or revised segments of language codes or processing. Monitors effective hardware utilization: Reviews system logic for optimum throughput. Work frequently includes program maintenance and error detection/correction of existing codes/languages and/or revisions to systems documentation.

Experience and Training: Bachelor's degree in Computer Science, a related field or equivalent experience. Two years systems analysis/programming activities in a business environment is typical experience.

6312 PROGRAMMER/ANALYST 2

Conducts and coordinates the analysis, design and implementation of computer based information systems to meet user requirements. Plans and directs preliminary studies of potential electronic data processing applications and prepares design proposals to reflect costs, time and alternative actions to satisfy existing and future needs of the institution. Participates in systems software development and maintenance as required. Conducts detailed analysis of defined systems specifications and develops all levels of block diagrams and flow charts. Assists in the preparation of costs analyses and justifications of data processing systems. Develops conversion and system implementation plans. Conducts a full range of programming tasks including program design, program coding, debugging and documentation for a variety of general applications programs including data manipulation, input and output routines reflecting a variety of equipment configurations. Programs logical interfaces and applies techniques for efficient program logic and data manipulation. Develops operator and control instructions; maintains and updates existing programs of a non-routine nature. Conducts systems programming and support activities such as new or revised segments of language codes or processing. Monitors effective hardware utilization: Reviews system logic for optimum throughput. Work frequently includes program maintenance and error detection/correction of existing codes/languages and/or revisions to systems documentation.

Experience and Training: Bachelors degree in Computer Science, a related field or equivalent experience. Two to four years systems analysis/ programming activities in a business environment.

6313 PROGRAMMER ANALYST 3

Responsible for performing professional Programmer/Analyst assignments, including conducting analysis, maintenance, design conversion and implementation of computer based information systems to meet specified design requirements and specifications. Investigates standard system applications, prepares analysis of system specifications and program coding. Translates detailed design specifications into computer program instructions, debugs routine programs, conducts systems test data, prepares diagrams and over-all flow charts, prepares statements of programs objectives and associated documentation. Conducts programming tasks including data manipulation, input and output routines reflecting a variety of equipment configurations. Coordinates the interfaces between major systems and programs. Responsible for Web design, maintenance and updates. At the highest level, activities include the conceptualization, development and implementation of complex program designs. Performs complex systems analysis and programming tasks requiring advanced techniques on the forefront of technology which may include mainframe, WEB, Visual Basic and/or .Net. Acts as senior consultant for lower staff, providing technical advice and consultation on complex analysis and programming applications. Reviews and evaluates feasibility studies and prepares recommendations based on in-depth knowledge of problem and the capabilities of potential approaches. Plans, conducts and coordinates the application of state-of-the art information processing techniques to existing and future needs.

Experience and Training: Bachelors degree in Computer Science, a related field or equivalent experience. Five to eight years systems analysis/ programming activities in a business environment.

6441 SYSTEMS/NETWORKS SECURITY SPECIALIST 1

Under direct supervision, assists carrying out routine phases of information systems/networks security program that involves access to computers and computerized data enabling company to meet contractual requirements for networks security through firewalls and intrusion detection systems. Assists in conducting regular audits to ensure that systems are being operated securely, and information systems security policies and procedures are being implemented as defined in security plans. Assists in developing, testing, and operating routine firewalls, intrusion detection systems, enterprise anti-virus systems and software deployment tools following routine instructions. Safeguards the network against unauthorized infiltration, modification, destruction or disclosure. Researches, evaluates, tests, and implements new security software or devices. Assists in implementing, enforcing, communicating and developing security policies or plans for data, software applications, hardware, telecommunications and information systems security education/awareness programs. Assists in conducting investigations of information systems security violations and incidents, reporting as necessary to management. Responds to queries and requests for routine computer security information and reports. Incumbent may report into the Security department and act as a liaison between the IT and Security functions OR may report directly into the IT function. Excludes those who perform these duties less than 80% of the time.

Experience and Training: May have some experience in the Security function and in the field of Computer Science. Associate degree in Computer Science or computer related military experience a plus, but not required for the job. This is an entry level position.

6442 SYSTEMS/NETWORKS SECURITY SPECIALIST 2

Under general supervision, carries out all phases of information systems/networks security program that involves access to computers and computerized data enabling company to meet contractual requirements for networks security through firewalls and intrusion detection systems. Conducts regular audits to ensure that systems are being operated securely, and information systems security policies and procedures are being implemented as defined in security plans. Develops, tests, and operates firewalls, intrusion detection systems, enterprise anti-virus systems and software deployment tools. Safeguards the network against unauthorized infiltration, modification, destruction or disclosure. Researches, evaluates, tests, communicates and implements new security software or devices. Implements, enforces, communicates and develops security policies or plans for data, software applications, hardware, telecommunications and information systems security education/awareness programs. Conducts routine investigations of information systems security violations and incidents, reporting as necessary to management. Responds to queries and requests for computer security information and reports. Incumbent may report into the Security department and act as a liaison between the IT and Security functions OR may report directly into the IT function. Excludes those who perform these duties less than 80% of the time.

Experience and Training: A 2-year Computer Science degree or computer related experience. A Bachelor Degree in Computer Science a plus, but not required for the job. Requires 2 years experience in developing and implementing Intrusion Detection Systems and firewalls.

6448 DATA SECURITY MANAGER

Responsible for protecting the organization's computers, networks and data against threats, such as security breaches, computer viruses or attacks from unauthorized users. Develops and administers policies and procedures for identifying, reporting, and resolving security violations. Perform preliminary forensic evaluations of internal systems. Interfaces with clients and management to understand their security needs and oversees the development and implementation of procedures to accommodate them. Plans, schedules, assigns, and directs staff on technical and operational projects and during regular departmental activities. Exercises the authority of a manager concerning staffing, performance appraisals, promotions, salary recommendations, and terminations.

Experiencing and Training: A bachelor's degree in computer science, programming, or a related field. Bachelors degree with a seven years professional experience in a systems environment.

6498 INFORMATION TECHNOLOGY MANAGER

Plans, organizes, directs and controls the activities and staff involved in the study, design, development and installation of data processing systems, including systems analysis, programming and computer operations. Generally reports to the VP of Information Systems or equivalent level. Oversees the development and installation of information systems for planning, control and operational purposes through lower level supervisors and/or exempt level staff members. Assist in supervising the conduct of feasibility studies for system improvement and the preparation of system project proposals. Assists in preparing long-range systems projects/plans with priority recommendations. Schedules, controls and reports progress of system design, development and installation activity. Reviews facility and equipment requirements and prepares related recommendations. May be responsible for decentralized data processing applications and monitors equipment utilization. Prepares operational forecasts and requirements for data processing, systems development and communications. May prepare and administer project and department budgets and reports budget performance.

Experience and Training: Bachelor's degree in Computer Science, a related field or equivalent experience. A typical incumbent will normally possess five years of system design, planning and installation experience in data processing activities. Three years of increasingly responsible supervisory/management experience also required.

6499 ASSISTANT VICE PRESIDENT INFORMATION TECHNOLOGY

The purpose of this position is to provide assistance to and act in place of the functional Vice President in the management of the department. Will be responsible for assisting the Vice President in managing all aspects of the functional area. Assist in strategic planning, project plans, budgetary projections, managing of day-to-day operations, long-range planning. Responsible for staff development and training. Assist the Vice President with strategic planning and continuous refinement of technology plan.

BRANCH OPERATIONS

10010 GENERAL TELLER

Under limited supervision performs a wide variety of assigned teller tasks associated with the processing of member transactions such as deposits, withdrawals, loan payments, posting of transactions, money orders and travelers checks.
